

Registering to Bid: What's Available?

Once you become registered bidder of auctions powered by cMarket, you can do three things with a few simple mouseclicks...

- 1) Bid on items;
- 2) Purchase items; or
- 3) Donate items or services – online - to an auction.

Once logged in to an auction, you'll notice several features aimed at making bidders' lives easier:

- 1) Your My Items page, noting items on which you've placed Watches, on which you're bidding, or have won;
- 2) Your My Account page, noting your contact, account, and password information, as well as credit cards on file, and
- 3) a Help page of Frequently Asked Questions by bidders like you.

...more about these areas later in this training...

Remember: you must be logged into the cMarket system in order to place bids or visit your My Items or My Account areas. If you do not see these options in the top-right corner of an auction, simply log in!
